**Section on Critical Care**  
Educational Program Schedule (Sun/Mon)  
National Conference & Exhibition  
October 12-13, 2014  
San Diego, CA

**Brad Poss, MD, FAAP**  
*Moderator & Program Chair*

---

Sunday, October 12, 2014  
8:00 am – 5:30 pm

**Section on Critical Care Program & Reception - Day 1**  
*Scientific Abstract Presentations and Simulation Session in the PICU*

**Session Description/Objectives:**  
This session will enable physician, physician trainees, nurses, and other healthcare professionals to present original research in both oral/platform and poster presentation formats. The attendee will become conversant in new research in the field of pediatric critical care.

8:00 – 9:30 am  
Oral Abstract Session I

9:30 – 10:45 am  
Poster Walk Rounds and Break

10:45 – 12:15 pm  
Oral Abstract Session II

12:15 – 12:30 pm  
Abstract Awards

**Fun with Pediatric Critical Care Simulation**  
Session Moderator: Brad Poss, MD, FAAP

**Session Description/Objectives:**  
This session will enable physician, physician trainees, nurses, and other healthcare professionals to have hands-on simulation experience in improving team communication, managing patient scenarios, and increasing their procedural competency. The format will be a series of patient cases using simulation technology in a team-based format as well as utilizing procedural stations and interactive questions using ARS format. The objectives of this program are:

1) Increase medical knowledge in managing common pediatric critical care situations.  
2) Improve the learner’s understanding of the use of ultrasound in critical care procedures.  
3) Understand the concept of close loop communication and its role in improving communication.

12:30 – 1:30 pm  
Pediatric Simulation Overview (Box Lunch Provided)

1:30 – 4:50 pm  
Simulation Sessions  
Dr. Kiran Hebbar, MD  
Dr. Tom Kallay, MD  
LCDR Luke Zabrocki, MC, USN

4:50 – 5:00 pm  
SOCC Update  
Ed Conway, MD, FAAP

5:00 – 5:30 pm  
Presentation of SOCC Distinguished Career Award
Monday, October 13, 2014
8:30 am – 12:00 pm

Section on Critical Care Program - Day 2
Post-Intensive Care Syndrome (PICS): Are they really OK when they leave the ICU

JOINT PROGRAM WITH SECTION ON HOSPITAL MEDICINE

Session Description/Objectives:
This session will update attendees on the Post-Intensive Care Syndrome and current efforts to define its epidemiology, treatment, and outcomes. The three lectures will be followed by a panel discussion. Objectives of the program are:
1) Improve awareness of PICS and understand its prevalence and potential treatments.
2) Understand the effect of PICS on families and assist the learner in improving family centered care at their own institution.
3) Understand the economic impact of PICS including on families and the healthcare system.

8:30 – 9:20 am
PICS: What is it and why should we care?
John Straumanis, MD, FAAP

9:20 – 10:10 am
The effect of PICS on Families: Can we improve the family’s experience?
Roger Nicome, MD, FAAP

10:10 – 10:30 am
Break

10:30 – 11:20 am
The economic cost of PCIS: Can we afford to not pay attention?
Carly Riley, MD, FAAP

11:20-12:00 pm
Panel Discussion and Wrap-up
